

ANGEL IRUTHYA F

Data Science and Artificial Intelligence graduate with a strong foundation in Python, Machine Learning, SQL, and Data Analysis. Passionate about developing AI-driven solutions, solving real-world problems, and continuously learning emerging technologies. Eager to contribute technical and analytical skills to an innovative organization.

EDUCATION

Dr.MGR Educational and Research Institute. 2022 - 2026

Bachelor of Technology - Datascience and Artificial Intelligence

CGPA - 8.8

St.Joseph Anglo Indian Higher Secondary School.

Higher Secondary, Jun 2020 - May 2022

Mathematical Biology

Percentage - 77.34 %

St.Joseph Anglo Indian Higher Secondary School.

SSLC, Jun 2019 - May 2020

Percentage - 80.8 %

SKILLS

- Python
- HTML,CSS,Javascript
- Data Analytics - Power BI
- AI/ML Fundamentals
- Business Intelligence
- MySQL
- Cloud Computing

CONFERENCE

MGR NCICT'25

Paper Presentation - PausePlay Smart Screen Time Manager

ARCH INTERNATIONAL CONFERENCE - MODI'25

Paper Presentation - AI for Ocean Sustainability

ICCISS'26 INTERNATIONAL CONFERENCE

Paper Presentation/Publication(Scopus Indexed) - Lung Cancer Detection using 3D-Resnet and Inception Resnet

PROJECTS

Data Professional Survey Dashboard

- Tech: Power BI, Power Query, DAX
- Work: Built a Power BI dashboard to analyze global data professional survey data using Power Query and DAX, enabling insights into salaries, career trends, and work-life balance.

Mini Project : AI-Powered Natural Compound Screening

- Tech: GNNs, VAEs, GANs, SHAP, Docking
- Work: Predicted bioactive compounds, validated with docking, added explainability, deployed as web tool

Major Project : Lung Cancer Detection at Early Stage using 3D-Resnet and Inception Resnet

- Tech: 3D-ResNet, Inception Resnet, 3D V-Net
- Work: Built a 3D deep learning pipeline for early lung cancer detection. Implemented V-Net for nodule segmentation and 3D-ResNet for classification, optimizing volumetric medical image preprocessing for accurate analysis.

INTERNSHIP

8 Queens Software Technologies Private Limited

Full Stack Web Development

August 2024

- Built responsive websites using advanced HTML, CSS (Flexbox, Grid, animations), and JavaScript.
- Developed interactive front-end features to enhance user experience.

CERTIFICATIONS

- Introduction to Python – IBMCE
- Cloud Application Developer – IBMCE
- Business Intelligence - IBMCE
- Microsoft Identity and Access Administrator Training – Microsoft
- Microsoft Operation Analyst – Microsoft
- Python for Datascience - NPTEL
- AWS Cloud Architecting - AWS Academy

HACKATHON

- **VIT National level Hackathon(Screen Time Manager):** Browser extension for parental control with custom profiles and quizzes to encourage healthy digital habits.
- **HackXelerate'25(PlastiCycle):** AI-powered recycling platform to identify plastics, promote eco-friendly methods, and reward users, aligned with UN SDG 12 & 13.
- **IBM Hackathon'25(AI-powered Job Analyzer & Career Counseling System):** Built an AI-driven platform for resume screening, job-resume matching, and career counseling with skill gap analysis and personalized guidance to support employability.
